

+++

A Projects section created with the Portfolio widget.

widget = "portfolio" # See <https://sourcethemes.com/academic/docs/page-builder/> headless = true # This file represents a page section. active = true # Activate this widget? true/false weight = 65 # Order that this section will appear.

title = "Projects" subtitle = ""

[content]

Page type to display. E.g. project.

page_type = "project"

Filter toolbar (optional).

Add or remove as many filters
([`content.filter_button`] instances) as you like.

To show all items, set `tag` to `"*"`.

To filter by a specific tag, set `tag` to an existing tag name.

To remove toolbar, delete/comment all instances of
[`content.filter_button`] below.

Default filter index (e.g. 0 corresponds to the first
[`filter_button`] instance below).

filter_default = 0

[`content.filter_button`]

name = "All"

tag = "*"

[[content.filter_button]]

name = "Deep Learning"

tag = "Deep Learning"

[[content.filter_button]]

name = "Other"

tag = "Demo"

[design]

Choose how many columns the section has. Valid values: 1 or 2.

columns = "2"

Toggle between the various page layout types.

1 = List

2 = Compact

3 = Card

5 = Showcase

view = 3

For Showcase view, flip alternate rows?

```
flip_alt_rows = false
```

```
[design.background]
```

Apply a background color, gradient, or image.

Uncomment (by removing `#`) an option to apply it.

Choose a light or dark text color by setting `text_color_light`.

Any HTML color name or Hex value is valid.

Background color.

```
color = "navy"
```

Background gradient.

```
gradient_start = "DeepSkyBlue"
```

```
gradient_end = "SkyBlue"
```

Background image.

```
image = "background.jpg" # Name of image in  
static/img/.
```

`image_darken = 0.6` # Darken the image? Range 0-1
where 0 is transparent and 1 is opaque.

Text color (true=light or false=dark).

```
text_color_light = true
```

[advanced]

Custom CSS.

```
css_style = ""
```

CSS class.

```
css_class = "" +++
